

Heatmap showing the number of genes with significant expression changes between AvrBs2 and various Xop proteins. The color scale ranges from 0 (black) to 160 (light yellow). AvrBs2 shows high expression changes with XopE1 and XopE4 (approx. 150). Other Xop proteins show lower changes, mostly below 40.

Protein	Number of Genes
AvrBs2	150
XB3	100
XopAE	10
XopAG	10
XopAK	120
XopAO1	10
XopC2	10
XopE1	150
XopE4	150
XopK	10
XopL	5
XopN	10
XopQ	10
XopR	10
XopV	120
XopZ	10
